

VACANCY

Inspector

39 hrs per week – candidates should be flexible to suit business needs

About the Company

Stainless Metalcraft manufacture equipment for some of the world's most hazardous environments. Our broad expertise spans pressure vessels, vacuum vessels and cryogenic vessels for safety critical applications across, among others, sectors such as medical, research, big science, power generation, nuclear, oil & gas, petrochemical & water.

About the Role

- Responsible for dimensional acceptance of machined & fabricated components, including, but not limited to :-
 - In-process inspection
 - Final inspection
 - FAIR
- Using standard measuring equipment and/or a Romer arm, Laser Tracker, 3D scanner etc
- Goods Inwards

Work experience requirements

- Must be able to read and understand Engineering & fabrication drawings.
- Have an understanding of geometrical tolerancing (preferably BS8888).
- Competent in using standard measuring equipment, although training will be given on the arm, tracker and scanning equipment (Hardware & Software).
- Experienced in word & excel.
